

Why is math taught differently today?

Presented By

John SanGiovanni

Author, National Speaker, Trainer, Parent and Coordinator of
Elementary Mathematics @ HCPSS

Will address the question:
Why is math taught differently today?

Mr. SanGiovanni brings a unique sense of humor and perspective to the field of mathematics. Parents who attend this program are sure to learn new ideas about math instruction and will receive resources to support their child's learning at home.

Students in attendance will play some exciting math games and have a chance to share with their parents.

When: Wednesday, March 22

Where: Deep Run Elementary School

Time: 6:30-8:00pm

Please sign and return the bottom of the letter to your teacher by Monday,
March 13th

Sincerely,

Eric Soskil

Jamie Lee

Kelly Snapkoski
