

Kindergarten Readiness Newsletter

MAY 2023

Mathematics

Visit the [Howard County Pre-K Family and Community Resource Page](#) for ideas to support your child's understanding of number concepts, number operations, geometry, and measurement and data. The resource page provides math vocabulary and activities your child can practice in a variety of settings. It also includes fun, online activities!

Physical Well-Being and Motor Development

Did you know that developing fine and gross motor skills can boost your child's self-confidence by increasing self-care independence and the ability to participate in a variety of activities throughout the school day? [HCPSS offers resources](#) for how to support motor development and the overall, physical well-being of your child.

Language and Literacy

Help your child to love books AND history! Look for books about familiar places, your family's culture, or topics from school. You can always ask your librarian for help! For more library tips, check out [Make History Come Alive with Books!](#)

Social Foundations

Young children can learn to follow directions from adults. To see what you should expect from your young child and learn some tips, go to [National Center for Pyramid Model Innovations \(NCPMI\)](#) and review "[Teaching Your Child to: Cooperate with Requests.](#)"
